

Director General
Communications Authority of Kenya
P.O. Box 14448
Nairobi 00800

Dear Sir/Madam,

Application for Industrial Attachment Opportunity in Cyber Security/Information Technology

I am a third-year Computer Science student at Kibabii University, writing to express my interest in the Industrial Attachment Opportunity at the Communications Authority of Kenya (CA) within the Cyber Security or Information Technology department.

Through my education, I have gained my skills in network security, programming, and cybersecurity. Using Python and JavaScript, for instance, I created a malware detection system that improves system security by utilizing safe file storage and signature-based detection. Additionally, I have credentials such as the Cisco Ethical Hacker Badge, AWS Certified Cloud Practitioner (CCP), and HCIA Security, which have improved my network security, cloud computing, and ethical hacking abilities over the course of my job.

By planning workshops on programming and cybersecurity, I have refined my leadership and teamwork abilities as the Lead of the Kibabii University Informatics Club. What really appeals to me is the Communication Authority's dedication to developing Kenya's ICT industry and maintaining telecom cybersecurity.

I am confident that my technical skills, certifications, and passion for cybersecurity align with CA's goals. I have attached my CV, a letter of enrollment, and other required documents. I would welcome the opportunity to discuss my application further in an interview.

Thank you for considering my application.

Yours sincerely,

Alex Mwangi
